Authentic Linen Clothes For Men And Women

SHĀNTIMA is a small clothing design studio located in southern Israel.

Our goal is to be able to show the harmony between external and internal beauty in every person who come to us.

So we create high-quality linen clothing that truly reflects the individuality of its owner.

In our design, we strive for simplicity and comfort and prefer direct and trapezoidal silhouettes, laconic cut and layering.

We almost do not use fasteners, but tapes, ties and elastic bands.

We work with 100% linen, because we believe that it is a special material.

Eco-friendly and fully biodegradable linen has natural antiseptic and antibacterial properties. It doesn't create static and protects against ultraviolet radiation. Also it allows the body to breathe! That's why clothes made from linen fabrics are so comfortable to be used in the heat.

Finally, linen is very wear-resistant and with time it only gets better.

The sustainability of the production is also very important for us.

We buy linen in reliable sources, knowing the whole process of fabric manufacturing. Also we use the work of local specialists. All our clothes are hand made in Israel.

"MORE SPACE" is a linen fashion collection designed for men and women, featuring loose and comfortable clothing styles.

This collection is inspired by the desire for simplicity and relaxation in our busy lives. Each piece is carefully crafted from high-quality linen, ensuring both comfort and durability.

"MORE SPACE" offers a range of garments that allow the wearer to move freely and breathe easily, creating a sense of openness and tranquility in their everyday life.
